

# Program

14th Nov 2012	15th Nov 2012	16th Nov 2012	17th Nov 2012	18th Nov 2012	19th Nov 2012
				Change Venue	Departure
Arrival Registration	Keynote: Makoto Manabe: A new look at the evolution of dinosaurs to modern birds 9:00-10:00	Keynote: Craig Smith: Recent advances in our understanding of avian sex determination 9:00-10:00	Keynote: Shinji Iijima: Germline transgenesis of chicken 9:00-10:00	Free Morning	
	Birds and Evolution Cheng-Ming Chuong Mikiko Tanaka 10:00- 12:30	Stem Cells and Early Development Bertrand Pain 10:00- 12:30	Gene delivery and Trangensis Masanori Uchikawa Yuki Sato 10:00-12:30		
	Lunch / BEX seminar 12:30- 14:00	Lunch 12:30- 14:00	Lunch / BEX seminar 12:30- 14:00		
Welcome					
Recent advances in avian genomics and genetics Dave Burt 14:00- 18:00	Lab/Poster Intros 14:00 -	PGC: propagation, handling and uses Tamao Ono 14:00- 16:00	Neurobiology and Behaviour Masaru Nakamoto 14:00- 16:30	Live Cell Imaging (JST session) Yoshiko Takahashi, Takayuki Suzuki 14:00- 16:00	
	Organogenesis Raj Ladher Rich Schneider 15:00-			Lab/Poster Intros 16:00- 17:00	
	17:00-17:30	Using birds to understand disease Don Newgreen 17:00- 19:30	Using birds for cell biology Chaya Kalcheim Guojun Sheng 17:00- 19:30	Technical resources (NBRP session) Takashi Yoshimura Olivier Pourquié 16:30- 18:30	
	Embryology: Cutting, Pasting and Painting Peter Farlie				
	Opening Mixer 18:00	17:30- 19:30	17:00- 19:30	17:00- 19:30	
	Posters	Posters	Posters	Closing Banquet 19 : 00
